RE: ROD SPENCE

I have known Rod Spence in a business relationship for approximately 10 years.

My first association with Rod was when he was engaged by a legal Association of which I was a state president. He coordinated a lobbying and publicity campaign that involved media, grassroots lobbying, political lobbying, television advertisement production, pamphlet production and postproduction.

His efforts were extremely successful. He achieved front-page Courier-Mail publicity with a priceless picture of our campaign front person (a state rugby league star) voicing his opinion is against the legislation against which we were lobbying.

For the last approximately 2 years Rod has been engaged by my legal firm has an external media and marketing consultant. We chose Rod particularly because of his experience and expertise in professional services firms and also in the real estate market.

Rod is thorough, imaginative and diligent. He has helped us drive our marketing efforts to new levels.

I have no hesitation in recommending Rod to other businesses for a similar role.

Yours faithfully,  
CARTER CAPNER LAW
