To whom it may concern,

Subject Spence Consulting

I am writing to offer my support for Spence Consulting. We have been aware of the senior business role that Rod has occupied in the Gold Coast business community for over thirty years, the high esteem he is held in, and the significant successes he has achieved for the business community.

Through our membership base of 300 Business leaders and profile in the regional business community, we have close working relationships with businesses, professional service providers, industry representative bodies and government. Rods skills in the area of corporate communications have proved invaluable to our organisation. We have gone through a major re-branding exercise with our company, and the amount of work that has been done by Spence Consulting has transformed our brand.

The tailored mentoring provided by Spence Consulting has been invaluable to our organisation. We have absolutely no hesitation in recommending Rod Spence and his company to prospective clients.

Please contact me if you have any enquiries.

Yours Sincerely,

Peter Watkins
Business Development Director
Institute of Business Leaders
